

Balancing all day made easy

Get fit with Back App

Sitting on the Back App Chair

On the Back App Chair with the adjustable Magic Ball and your feet on the footplate you will:

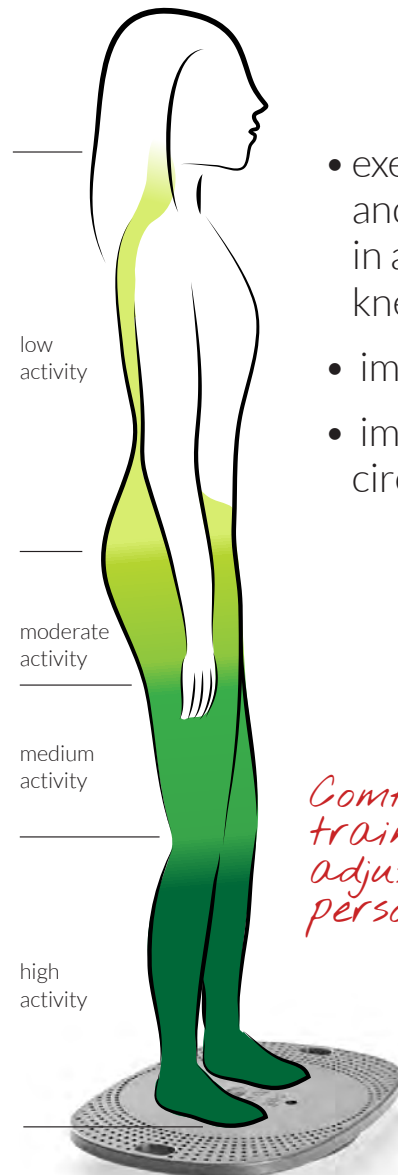

- sit more upright with less effort
- burn more energy **+19%**
- exercise your core muscles in lower back and neck

NO MORE BACK PAIN!

Standing on Back App 360

On the 360 Balance Board with the adjustable Magic Ball you will:

- exercise joints and muscles in ankles, legs, knees and hips
- improve posture
- improve blood circulation

Comfortable training you can adjust to your personal level.

Back App Chair

On the Back App you sit tilting in all directions with your feet on a footplate padded with a soft damping material.

By turning the ball up or down you easily adjust the tilting movement.

The sitting position and the gentle motion ensure a wonderful sitting experience both with and without wheels.

Back App 360

Balancing on Back App 360 you are tilting in all directions.

By turning the red knob in either direction you easily adjust the tilting movement.

The soft ring shaped damping device makes the tilting experience comfortable for all users.

The Back App chair and the Back App 360 balance board utilize the patented Back App technology. A comfortable 360 degree tilting movement is achieved by the body balancing on the centrally positioned “Magic Ball” surrounded by a soft ring-shaped damping cushion.

Effects are documented in Scientific Studies. Read more at: www.backapp.eu

Product info

Back App

- The Back App base frame is made from 99.9% recycled die-cast aluminum and is available in Silver Grey, Black Grey and Polished finish.
- The ball is moulded onto a tube that can be screwed into and out of the aluminum frame to control the tilt of the chair.
- A tilt indicator with green and red color is integrated in this tube.
- Damping material is attached with double sided tape that increases adhesion with use.
- To simplify, Back App only comes with one lift height. See the dimensions on the drawing.
- The seat comes with the following fabrics:
 - Nordic Wool - Felt wool
 - Alcantara - Composite Material
 - Four standard colors
 - 14 optional colors (delivery time up to 8 weeks)
 - Skai Palma - Breathable synthetic leather
 - Elmosoft - Leather

Explanation of article numbers

Example art.nr.: 1008A-S-0-9400

The first 4 digits are the type of fabric on the seat

- 1010- / Nordic Wool
- 1008- / Alcantara
- 1005- / Skai
- 7702- / Elmosoft

Next letter is A-:

- This means Back App Model (Aluminium)

Next letter is type of base:

- -S- / Silver Grey. Comes standard with red ball
- -B- / Black Grey. Comes standard with black ball
- -P- / Polished Aluminium. Comes standard with black ball

The next digit is the color of the ball:

- -0- / Red Ball
- -1- / Black Ball

The last 4 digits is the color code on the fabric, eg.

- 9400 Black Alcantara

Back App Wheels

Is made from 99.9% recycled ingot-molded aluminum and comes in Silver Grey.

The function of Back App and the effects on the body are well documented in scientific studies.
