softwall + softblock specifications

# 235mm (9.25") wide softwall + softblock modular system

## colours + materials

- natural brown paper
- black paper
- indigo blue paper
- white textile (translucent)
- black textile
- custom colour textile available in any pantone \*made to order 12-14 week lead time

The honeycomb geometry of softwall + softblock expands to create a freestanding structure that is over one hundred times longer than its compressed form. Standard softwall + softblock elements expand to a maximum of 4.5 meters, or can be opened partially to achieve shorter lengths. Custom lengths and heights are also available and all elements compress for storage.

## optional accessories

- LED kit
- steel strips to connect softwall + softblock to walls or vertical structure
- felt handles
- steel base
- clipping system to mount signage + printed materials
- peg and strip

## fire rating certificates available

- M1 · France (paper)
- B1 · Germany (paper)
- NFPA 701 · United States (paper)
- ASTM 84-05 Class A · United States (textile)

## acoustic certificates available
