

PLAYBACK
Sofa System
By Claesson Koivisto
Rune

PRODUCT INFORMATION

Playback is a module sofa that combines playfulness and tight elements. Playback is characterized by the opportunity to choose different fabrics and colours for the frame and cushions. Furthermore, each individual can give the sofa its own character by changing the movable cushions in the back.

“I wanted to create a piece of furniture that gave the architect and the interior designer complete freedom to compose and adapt it to their own wishes. Despite the tight lines and the rather strict linear form the variation and the rounded cushions gives the sofa its soft, playful and comfortable character”, says Eero Koivisto.

“Playback fill an important role in the range of elegant and super functional sofas for the ‘contractor’ side that we had been missing”, says Kurt Tingdal, Offecct.
